SUMMARY

Junior DevOps engineer in training building a real homelab on a hardened Ubuntu VPS. Hands-on with Linux server administration, Docker Compose, nginx, CI/CD with GitHub Actions, monitoring with Prometheus/Grafana, log collection with Loki/Alloy, and Telegram alerting. Focused on practical infrastructure, observability, and reliable deployment workflows.

HARD SKILLS

Linux & server administration	Ubuntu 24.04, systemd basics, SSH key-only access, ufw, fail2ban, unattended upgrades
Containers	Docker, Docker Compose, container networking, persistent volumes
Web & TLS	nginx static hosting and reverse proxy, Let's Encrypt, certbot, HTTP to HTTPS redirects
CI/CD	Git, GitHub, GitHub Actions, rsync deploys, SSH deploy keys, workflow secrets
Observability	Grafana, Prometheus, node_exporter, Loki, Grafana Alloy, LogQL basics, Grafana Alerting
Automation & scripting	Bash basics, Python for utility scripts, Telegram Bot API notifications
Networking	DNS records, TCP/IP basics, HTTP/HTTPS, localhost binding, private service exposure

PROJECTS

erbols-homelab - live VPS infrastructure 2026

- Built and documented a public homelab on an Ubuntu 24.04 VPS hosted on Vultr.
- Serves erbsultan.uz through nginx with Let's Encrypt TLS, DNS records, HTTP to HTTPS redirect, and a hardened SSH/firewall baseline.
- Implemented GitHub Actions deployment with rsync over SSH and Telegram status notifications for successful or failed deploys.

Observability and alerting stack 2026

- Deployed Grafana, Prometheus, node_exporter, Loki, and Alloy with Docker Compose.
- Configured Prometheus scraping for VPS metrics and Loki log collection for nginx access/error logs.
- Provisioned Grafana data sources, alert rules, notification policy, and Telegram contact point from repository files.
- Added scheduled GitHub Actions smoke checks for erbsultan.uz and grafana.erbsultan.uz with Telegram failure notifications.

EDUCATION

- School 21 - DevOps / systems track, 2024 - Present
- EPAM Learn - Cloud & DevOps, online
- KodeKloud DevOps Mastery - self-paced practice
